Forecast for Thursday 21 Mar 2024

Weather: A cloudy morning with some mist and fog patches, and some patchy light rain or drizzle at times from thicker cloud in the west. The day will remain mostly cloudy but the odd brighter spell is possible in the east. Cloud will thicken during the evening with some light rain possible after night fall.

Chance of cloud-free hill tops above 600m: 70%, cloud bases lower around western hills.

Low cloud and visibility: During the morning layers of scattered cloud above 500m, especially around western hills, further east hill tops will be mainly clear. Cloud bases lowering and cloud thickening during the evening. Visibility will be good but turning hazier by afternoon and evening.

03:00 on Thu 21 Mar 2024	1.4mm	7.8mm	14.2mm

Forecast for Friday 22 Mar 2024

Weather: Early rain will clear the south of the Brecon Beacons by breakfast time on Friday leaving colder northwesterly winds. A mainly dry day ahead with some sunny spells developing in the afternoon as cloud clears. Feeling much colder than of late.

Maximum wind: Northwesterly 20-25mph with gusts 35mph.

Chance of cloud-free hill tops 600m: 60% improving to 90% as low cloud lifts and clears.

Low cloud and visibility: Early layers of low cloud above 600m will lift and clear during the morning with most cloud above the summits during the afternoon. Visibility may start moderate but soon improving good or very good.

Temperature: **Valleys:** Plus 7 Celsius falling to 3 Celsius.
At 600m: Plus 5 falling to 2 Celsius.
Freezing level: 1000m falling to 800m.
